**Program:**

This course is designed to teach professionals and parents the social learning frameworks, concepts, and strategies needed to guide others toward improved social processing and social competencies. Attendees will gain new insights into the power of their own social-emotional intelligence as they explore their social motivations and how they process and respond to social information.

- Dissect hidden social rules
- Contemplate how social expectations change with age
- Discuss the impacts of social problem solving

**Attendees will walk away with a number of Social Thinking treatment strategies:**

- Helping students avoid "the blur"
- Coping with boring moments
- Developing conversational language.

Mainstream teachers find the information in this course applicable to all students as it pertains to social-emotional learning, and audiences around the world love that it furthers their own social-emotional insights!
